

The Peruvian Campaign for the Right to Education, CPDE, is a civil society coalition of around 25 organizations involved in education programs in 10 sub-national regions in Perú. We are members of the Latin American Campaign for the Right to Education and the Global Campaign for Education, now members of the Education and Academia Stakeholder group.

CPDE is member of the National Association of Centres (over a hundred CSO) and the Focus Group on Education at the national mixed platform of State and CSO, the Agreement Platform for the Fight Against Poverty, Mesa de Concertación para la Lucha contra la Pobreza, MCLCP. The importance of this Platform is that it is present in the 26 sub-national regions of the country. Both ANC and MCLCP are long term organizations, created over 15 years ago.

These two broad organizations focus on presenting political proposals and means of implementing them, outcomes of participatory processes, as well as of mechanisms to follow-up their implementation, including indicators. The last proposals take into account and are related to Agenda 2030 and all the SDGs, distributed in four sustainable development dimensions: social, economic, environmental and institutional. The last one was added due to the need of more attention to strengthen institutions at all government level, national, sub-national and local.

Through ANC and the MCLCP, CPDE has started the enquiries about the process of elaborating the VNR, since Peru is presenting VNR at HLPF 2017. The National Center of Strategic Planning, CEPLAN, is responsible of preparing the Report and although they have not called for a national consultations, CSO will use the MCLCP platform to convey the observations and recommendations. Additionally, ANC and CPDE are confident that CEPLAN will accept the invitation to present the key goals and follow-up indicators to the coalition members, and how they are elaborating the VNR. This will be an opportunity to directly present observations and contributions to the report. This is a strategy ANC and CPDE used successfully with the Peruvian Ambassador who took part at the Open Working Group when the Agenda 2030 was being prepared through 2014 and 2015.

NOTE: I am handing a brief ppt and a paper with the Agenda 2030 and ODS in National Plans, prepared by the Agreement Platform for the Fight Against Poverty.
